

# Excel Toolbar has Labels Issues

## Symptoms

1. Labels showing code:

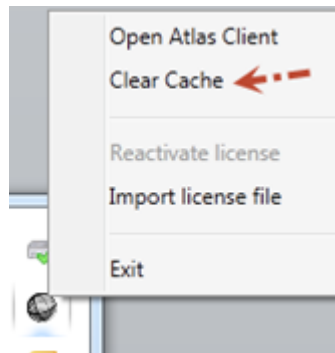

2. Names of tables remain in previous language after changing the language in the Preferences tab of the Atlas Client:

## Resolution

Sometimes, after an upgrade, one of the two above situations occurs. In these cases, please clear the cache on the Atlas Client and the problem should be resolved.

Right-click on the Atlas Client icon in the taskbar and select Clear Cache:

Post your question to the Atlas Forums or follow our social pages for regular updates.
